EAGLE-EYED SCRUTINY AT KASU ARCHITECTURE DEPARTMENT

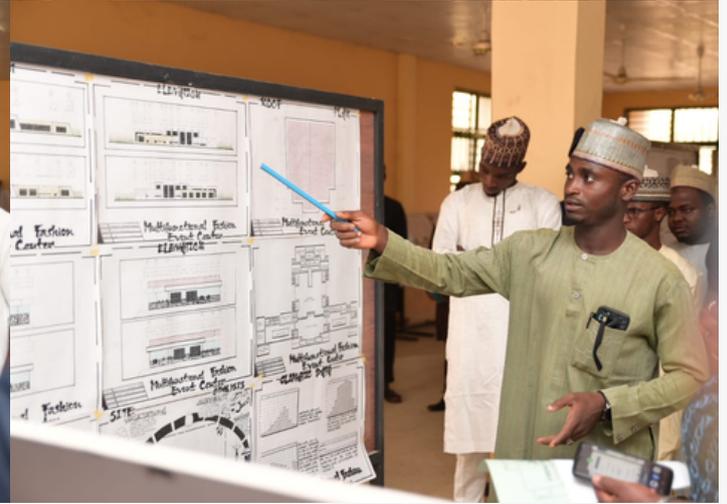

PROF. ARC. EVELYN LAMI ASHELO ALLU-KANGKUM, the external examiner from University of Jos, closely reviews students’ project presentations at the Department of Architecture, Kaduna State University, Kafanchan Campus.

She was joined in the assessment session by the HOD Architect Chindo and Architects Zakari, Christopher, and Aliyu, as final-year students presented their architectural design projects for evaluation.

The exercise forms part of the department’s academic quality assurance process, ensuring that graduating students meet the professional and scholarly standards expected of the discipline.
