VOL. 78 NO. 6

30th March, 2026

# BREAKING NEWS

Rehabilitation works have officially commenced this morning at the Kafanchan Campus of Kaduna State University (KASU), marking a swift follow-up to last week's handover of project sites to contractors by the Kaduna State Facilities Management Agency (KADFAMA).

The development signals the immediate take-off of the infrastructure upgrade initiative aimed at transforming key facilities within the College of Agriculture and Environmental Sciences. Contractors were seen mobilizing to site early in the day, beginning preliminary works across designated locations in line with agreed project timelines.
