

PROMOTING TEACHING AND LEARNING

By: Hamza Musa Makarfi

Level 200 students of Radio and Television News Reporting (MCM 207), Faculty of Communication and Media Studies, Kaduna State University, embarked on a guided tour of the Kaduna Campus under the supervision of Mallam Hamza Musa Makarfi.

The exercise was designed to expose students to practical field experience, enabling them to identify, develop, and generate story ideas from their immediate environment.

Through direct observation and interaction, the students explored various locations across the campus, uncovering issues, human angles, and everyday occurrences with news value.

The tour forms part of ongoing efforts to deepen practical skills in journalism, equipping students with the tools required for effective reporting, storytelling, and content creation in real world media settings.

Students had the opportunity for a chance interview and mentoring session with the Dean of Student Affairs, Professor M.K. Dauda.
