KASU VC CELEBRATES SCHOLARS WITH CASH GIFT

By Mujahid Umar Balarabe

Sendforth ceremonies more often than not, present moments to celebrate individuals who have dedicated themselves to long periods of service within institutions. On Thursday 9th April, in addition to several encomiums from colleagues and top management of Kaduna State University (KASU), the Vice Chancellor, Prof. Abdullahi I Musa donated a cash gift of Five Hundred Thousand Naira to Prof. John Gambo Laah and Dr. Joseph David Ariko, both from the Department of Geography as parting gifts to them celebrating their years of meritorious service to the KASU Community.

Prof Laah has served in various capacities within the University – Head of Department, Geography and Sustainability Studies; Dean, faculty of Science; Dean, School of Postgraduate Studies. He has taught and mentored a lot of staff within the institution. Described as a quick learner by his erstwhile colleague and boss, Prof. Auwal Abdussalam, Dr Ariko was at one time assistant postgraduate co-ordinator and seminar co-ordinator of the University. He has graduated several M.Sc candidates and actively supervises P.hD candidates.

Both Scholars called time on their chapter at KASU to begin a new one at the Federal University of Applied Sciences, Kachia.
